Re: Reply to Comments by Buckeye hills Regional Council Regarding the Rural Digital Opportunity Fund WC Docket Nos. 19-126 and 10-90

Madam Secretary,

In reply to comments submitted by the Buckeye Hills Regional Council on September 19 2019, I believe broadband development is crucial to the economic development of Hocking County and South Eastern Ohio. The first thing a potential developer needs to have is access to current technology. Any future business and manufacturing will not and cannot be done without the most recent and advanced technical capabilities.

Please consider South Eastern Ohio as the highest priority of need for the Rural Digital Opportunity Fund.

Sincerely,

Judie Henniger, Logan City Council
